We have always been at the forefront in providing the latest award winning treatments, The 'Epsilon Nd; Yag Laser & IPL was launched in February 2012 & we are the only clinic in Worcester to have this technology, this is the most effective treatment for thread veins & pigmentation on both the face and legs. (See Testimonials)

The Lipofirm Plus System was launched in May 2012 & has just been awarded 2nd place in "The

MyFaceMyBody” best body reshaping system!

All clients are offered a full Consultation & patch tests (FOC) including a medical review to identify any issues or contraindications before any treatment, courses or products are offered.

Beauty in a Flash Clinic invests in only high quality fully regulated & proven specialist equipment to deliver safe, effective results & we attend regular update training.

We were so proud to have been awarded the governments Health Standards Certificate.

This is the most rigorous quality control procedure available to providers of laser technology. Very few clinics have reached this standard & we are proud to be one of only two clinics in Worcester to have gained this certificate.

It is even more important these days to choose a safe clinic as this industry is no longer regulated.

Most importantly we treat our clients how we would like to be treated, putting them at ease on arrival. We are very approachable & fully understand the issues that lead clients to us in the first place, never under estimating how important these issues are to the client. Sometimes clients keep our adverts for months before plucking up the courage to contact us.

Please contact us for an informal chat or email any questions, concerns or enquiries. We look forward to hearing from you!
